

Infrastructure street meeting for Aberdeen:

6/21/16 7 Pm

Present: Monty O'Hara, Greg Claypole, Kathy Zembrodt, Jay Bayer, Zak Borchers, Matt Mattone, Dan VonHandorf

The plans were presented with Option 1 and option 2 for street and sidewalk. 1 being 22ft wide street and 4 ft sidewalk on east (odd) side of street. Option 2 being 20 wide street with sidewalk abutting the street with rolled curbs for easy access for fire truck to roll up on to have the footage they need to pass.

After many residents speaking about concerns and why they wanted one or the other. Option 2 was picked by majority to leave as much space as possible for the odd side of the residents to have in the yards and drives.
